### **DETAILED ACTION**

The following is in response to the amendment filed on February 6, 2006.

#### ***Allowable Subject Matter***

Claims 1-9, 15, 16, and 20-30 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art does not disclose a screen panel for a wood-chip digester comprising a screen plate with curved slots wherein the slots have at least one width portion of from approximately 3 to 10 mm and also wherein the slots have a chord length of from approximately 0.75 to 3 inches. Accordingly, the prior art does not disclose or suggest a wood-chip digester comprising the screen panel.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

#### ***Response to Arguments***

Applicant's arguments filed February 6, 2006 have been fully considered. Amendments and arguments filed in co-pending Application No. 10/193,500 have also been considered with respect to the double patenting issues set forth previously.

Art Unit: 1731

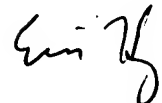

The amendments to the claims overcome the rejections set forth previously under 35 U.S.C. 103(a) based on Shearer (US 6,165,323) in view of Aaltonen et al (WO 93/07334) and Andersson (US 6,284,145), with or without Beuermann et al (US 5,638,960) or Chupka (US 4,795,560). The provisional rejection on the grounds of nonstatutory double patenting over claims of copending Application No. 10/193,500 is withdrawn.
